The company has sent employees to seminar training on CPNI compliance and then trained other employees on the same material and information obtained at said seminars including but not limited to what information may be discussed as Routine Carrier-Customer Service and Billing Relations, given information provided by customer to the employee.

Employees are instructed to protect CPNI from pretexters and the like, by obtaining passwords from our customers and requiring those passwords before releasing CPNI. Customers are informed not to use social security numbers, birthdays, mother's maiden name or any other common identity form. Our employees are also instructed to use call back numbers and/ or written responses which are sent to the numbers given by our customers and the addresses given by our customers as addresses to send correspondence on CPNI. These numbers and addresses and passwords are originally obtained by verification of the party who is providing the information by using proper methods of authenticating, whether by picture i.d., main telephone number call back and/ or main billing address letter.

Employees are instructed to notify the customers immediately when certain account changes are made, such as but not limited to: password; customer back-up means for lost or forgotten password; online account-n/a; or address of record. We do not have online account accessibility.

Employees are instructed to notify law enforcement, customers and the FCC and the MOPSC in the event of a CPNI breach.

Our employees are instructed to obtain explicit consent from a customer before disclosing a customer's CPNI to a carrier's joint venture partners or independent contractors for the purposes of marketing communications-related services to that customer; however, our company does not release information for marketing purposes to anyone.

Employees are instructed to keep records of any CPNI breach for at least two years.

The company secures its network.

Our Company sends an annual notice out to our customers regarding their privacy rights over their CPNI and whether they do not desire to receive any information on products and/ or services provided by our company or any of its d/b/a's or affiliates.

Any outside billing agency has been instructed to not release any CPNI that they may receive during the course of their functions for us.

The importance of CPNI protection is frequently brought up during the course of a year.
